

Inclusive strategies to
support pupils with
SEND in Art

Bebrave 

Bebrilliant 

Believe 

Cognition and learning

Memory

- ★ Offer additional thinking time to formulate responses and act upon instructions. To support this, warning of the question/response is useful
- ★ Offer short, personalised instructions in the correct task sequence
- ★ Provide visuals to support vocabulary
- ★ Offer pre-teaching sessions to make the unfamiliar feel familiar
- ★ Encourage to make/give the pupil a checklist/steps to success
- ★ Provide equipment checklists
- ★ Take photographs to record each stage of the art process to support retention of skills learnt
- ★ Display step-by-step reminders of key processes
- ★ Hear and use a range of specific vocabulary including pattern, colour, tone, texture, line, shape, form and space
- ★ Provide visual aids to enable learners to identify artists and their work, as well as to identify equipment and media

Task Organisation

- ★ Offer a visual task timeline
- ★ Offer a workstation approach if appropriate
- ★ Ensure equipment is well organised and easily accessible
- ★ Use of visual time prompt such as timers
- ★ Provide equipment checklists and task management boards
- ★ Easily accessible equipment and resources
- ★ Tasks to be broken down into smaller, manageable steps – use of task management boards
- ★ Ensure equipment is well organised and clearly labelled; (object of reference, pictures, words)

Concentration

- ★ Offer a visual task timeline
- ★ Sensory breaks built into timetable
- ★ Use of a tabletop timer to show how long the child has to work for
- ★ Ask the child to explain in their own words what they are learning/their task
- ★ Break larger tasks into small steps and offer a motivator for successful completion of each one
- ★ Keep focused activities short and intersperse with child-led activity
- ★ Daily repetition of activities and routines so that they become familiar and predictable
- ★ Avoid abstract contexts. Provide a range of concrete starting points, materials and techniques

Information Processing

- ★ Allow additional thinking time to process and react to instructions/information
- ★ Explore the learning style of the pupil and ensure you reflect their processing style in your teaching style and resources. Ensure you offer a range of teaching styles within your QFT
- ★ Resources to support structure of tasks e.g. task management boards, recorded instructions, visual instructions.
- ★ Individual workstations to lower visual and sensory stimuli
- ★ Show worked examples to support independent learning

Recognition and Recording

- ★ Alternative methods of recording such as mind maps, the use of ICT, filming, photographs
- ★ Children can dictate written activities work using immersive reader
- ★ Flashcards
- ★ Help pupils model ideas and create artwork collaboratively
- ★ Provide visual aids to enable learners to identify artists and their work, as well as to identify equipment and media

Application

- ★ Ensure the environment is language rich
- ★ Ensure new concept teaching is linked to previous learning
- ★ Continual use of art vocabulary throughout learning
- ★ Ensure a range of resources are available
- ★ Use strategies such as modelling, demonstrating and imitating to support learners in understanding the step-by-step processes
- ★ Introduce each piece of equipment – name it, explain what it does, model how it can be used or applied.

Communication and Interaction

Social interaction Communication

- ★ Introduce specific my turn/your turn activities so that the pupil can work collaboratively with another to complete a task.
- ★ Teach inference skills explicitly in context. 'It is hot in here.' What might that mean I need you to do to help?'
- ★ Always give a clear role/purpose in group work. Provide a brief check-list of what that role looks like/involves.
- ★ Model 'wondering aloud': 'I can see that Daniel has tears in his eyes. I wonder if this is because he is sad. I will go and see if I can help him.'
- ★ Give the pupil a clear role such as listener/speaker and signpost the information that they need to collect
- ★ Surround with positive peer role models and explicitly narrate their behaviours

Verbal/non-verbal Communication

- ★ Use partner talk strategies if the child has a peer or adult that they can talk to
- ★ Visual instructions to support understanding
- ★ Use of Makaton signing if appropriate
- ★ Objects of reference to aid understanding and following routines where appropriate

Receptive and Expressive language

- ★ Introduce pre-teaching of targeted subject specific vocabulary
- ★ Provide opportunities for overlearning vocabulary
- ★ Make vocabulary mats available as a table-top resource with supporting visuals
- ★ Support the pupil to create a personalised vocabulary bank/dictionary containing visual supports
- ★ Adult modelling of vocabulary
- ★ My turn/ your turn approach to learning vocabulary and definitions

Attention

- ★ Sit the child near the front and make frequent eye contact. Consider who they are sitting next to (positive peer role model)
- ★ Reduce language. Keep instructions as short as possible. Break them into small steps and give one at a time
- ★ Reduce visual and noise distractions
- ★ Gain attention through saying child's name before giving instructions
- ★ Have visual aids in the form of worked examples that the learners can have to hand when completing independent tasks

Listening

- ★ Give the child a question to ask prior to the lesson or give them an answer to a question that will be asked during the lesson. This can promote active listening. When first introduced make sure you ask the question early in the lesson, slowly, this time can be extended
- ★ Allow child extra time to process the language they are being told
- ★ Say child's name before giving instructions
- ★ Think about seating plan to minimise distractions

Social, Emotional and Mental Health

Regulation

- ★ Feelings charts
- ★ Staff trained in emotions coaching
- ★ Safe spaces for withdrawal
- ★ 5-point scale charts used
- ★ Emotions cards
- ★ Sensory diet and use of sensory manipulatives
- ★ A low-arousal area is planned for pupils who may need it and is available for use by all pupils. The area only needs to have immediately relevant materials/resources to minimise distraction

Self Esteem

- ★ Encourage other pupils to compliment the target pupil. This can be introduced whole class via peer marking approach.
- ★ Openly acknowledge and model that it is okay to make mistakes. During adult led activities role play making a mistake and talk through how to recover
- ★ Scaffolded learning where pupils can succeed
- ★ Having clear success criteria so pupils can recognise success
- ★ Task management boards
- ★ Visual timetables
- ★ To begin with offer small, private praise
- ★ When approaching a new learning activity/approach support the pupil to identify the skills and strengths that they already have that they can bring to the task. Work on developing metacognition skills would support this

Anxiety

- ★ 1:1 or small group work/talk partners to help build confidence
- ★ Task management boards
- ★ Visual timetables
- ★ Use of timers
- ★ Worry monsters/jars/wellbeing-emotions plaques
- ★ 5-point scale charts used
- ★ Mindfulness activities

Resilience

- ★ Growth mindset approach
- ★ Structured and repetitive sequences of lessons
- ★ Visual timers
- ★ Visual timetables
- ★ Task management boards
- ★ Modelling making mistakes

Self-confidence

- ★ Growth mindset approach - modelling making mistakes
- ★ Structured and repetitive sequences of lessons
- ★ Visual timers
- ★ Task management boards

Physical and/or Sensory needs

<p>Fine Motor Skills</p> 	<ul style="list-style-type: none"> ★ Pencil grips ★ Writing slops ★ Adapted tools such as training scissors ★ Varying sizes of equipment including pencils, paintbrushes, chalks, pastels, paper etc ★ Finger gym activities to 'warm up' the hands before producing art work ★ Use different mark making tools for darkness, grip and ink flow ★ Offer tools to support the correct posture for writing and drawing – wobble cushions and raised tabletops ★ Use frames or adhesives (e.g., masking tape) that hold down learners' work to surfaces in cases where learners may struggle to hold a resource in place ★ Provide learners with larger scale materials to work on and gradually decrease the scale as they acquire greater control ★ When drawing offer chunkier graphite sticks as well as soft 'B' range pencils ★ offer a range of painting application media – some learners may prefer a sponge to a brush or may even use their fingers at times ★ Use of malleable media to strengthen fine motor skills
<p>Gross Motor Skills</p> 	<ul style="list-style-type: none"> ★ Include large gross motor gestures/actions as a support for remembering key content information or subject specific vocabulary ★ Adaptive seating e.g. wobble cushion, physio chair, fidget chair bands ★ Room for pupils with mobility difficulties to leave the site of an accident
<p>Hearing impairment</p> 	<ul style="list-style-type: none"> ★ Provide a note taker (adult or peer) to record key information ★ Include opportunities for repetition in lesson time ★ Appropriately placed seating within the classroom ★ Use of hearing loops etc – if appropriate ★ Reduced background noises within the class e.g. fans, radiators etc ★ Pre teach of vocabulary ★ High level of visual support or Makaton for the spoken word ★ Use of subtitles if watching video stimulus ★ Kinaesthetic approaches are used, such as supporting teacher talk with visual aids; using subtitled or audio described film/video
<p>Visual Impairment</p> 	<ul style="list-style-type: none"> ★ Consider producing materials for all pupils in an accessible font size (at least 14 point) and typeface (eg Arial) to reduce the amount of modification needed ★ Provide electronic copies of resources for older pupils so they can put them into their preferred format themselves on their own computers ★ Allow work to be completed on electronic device and written feedback to be given in the same way ★ Offer coloured overlays and printed materials on pastel coloured paper ★ Increase line spacing (at least 1.5)

- ★ Clear font type (normally sans serif, such as Arial or Comic Sans)
- ★ alternatives to written recording are offered, eg drawing, scribing, word processing, mind maps, digital images, video, voice recording
- ★ When teaching use visual, tactile, auditory resources
- ★ Screen filters to cut down glare

Sensory processing

- ★ Multi-sensory approaches
- ★ Explore the use of different coloured overlays and paper
- ★ Recognise support needed for different sensory aspects e.g. a child with a visual sensory need would benefit from reduced visuals within their text/on the flipchart etc. A child with an auditory sensory need may benefit from sitting near the door so that they can withdraw from the room if the noise level gets too high.
- ★ Individualised sensory timetables with regular sensory breaks to reduce sensory arousal
