(https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/484418/supporting-pupils-at-school-with-medical-conditions.pdf)

Responsible Person

Natalie Sach is responsible for ensuring that the arrangements below are effectively implemented and maintained.

Medicine in School

Medicines will only be administered at school when it would be detrimental to a student's health not to do so. The school will store and dispense medication to pupils as long as: -

- It is prescription medication which has been prescribed by a medical practitioner with written instructions for its use; or
- It is non-prescription medication which has been supplied by the parent/guardian with written instructions for its use; and
- Written parental consent has been given.

When school can obtain one from the local doctor's surgery, it has an emergency epipen and Salbutamol inhaler.

Medication brought into school must be clearly labelled with the student's name, dosage, method of administration and be in-date.

Medication will be available to identified pupils at all times of the school day and administered by class staff and witnessed or given by a first aider.

Dispensing of Medicine

All requests for the dispensing of medication must be accompanied by a consent form completed, signed and dated by the pupil's parent or guardian.

The office staff are responsible for receiving medicines, checking consent and dose information, checking "use-by" dates and dispensing medication.

SLT or class teachers will deputise where necessary. All medication will be kept in a secure location: -

Filing cabinet in the staffroom (or fridge in staffroom for medication requiring to be chilled).

Medication for personal use by members of staff must also be kept in a secure location. E.g., handbags, etc containing such items must be locked away and not be left in the classroom where pupils could gain access to them.

Medical Log

Consent forms will be kept in the Medical Log and will be kept for the duration of the pupil's attendance at the school.

The Medical Log will also contain a log of medications dispensed which will include: -

- name of pupil
- name of medication
- 'use-by' date
- dose
- time
- date
- signature of dispenser
- Witness name and signature
- comments/reactions
- date and time of last administration of medicine (this is to ensure that an overdose is not given and is a change following training received in September 2019)

Medical Procedure

The school has provided a suitable place for the dispensing/application of medicines. Where necessary, arrangements have been made for pupils with particular conditions and these are detailed in individual care-plans.

Off Site Activities

The school has a procedure for off-site activities which includes the assessment of medical needs of all involved in the trip.

Self-Management of Medication

In certain circumstances the school will allow pupils to manage their own medication. In each case this will be discussed with the parent/guardian and appropriate health professionals - and this will be detailed on the parental permission slip. A risk assessment will be completed if deemed necessary.

The assessment of risk will include an evaluation of the risk to the student and others through inappropriate use of the medication, loss of the medication or failure to take the medication

Emergency Asthma Kits

This school's procedures for managing the use of the emergency asthma kit are based on Department of Health guidance: -

https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/350640/guidance_on_use_of_emergency_inhalers_in_schools_September_2014_3.pdf

Staff authorised to dispense this medication have read the above guidance and have been given instruction in the recognition of the symptoms of an asthma attack and the appropriate procedures to follow.

The emergency inhaler contains Salbutamol and will only be available to pupils who have been:

- diagnosed with asthma and prescribed an inhaler OR
- prescribed an inhaler as reliever medication
- have an asthma care plan (completed by parents)

In addition, parental consent must be obtained for use of the emergency inhaler.

The school keeps a register of pupils who have been diagnosed with asthma or prescribed a reliever inhaler.

The emergency asthma kit will be stored and managed in the same way as any other prescription medication following the procedures above.

Training

The responsible person will ensure that sufficient staff are suitably trained in the administration of medication and support of pupils with medical needs.

The responsible person will keep a record of all medical needs training.

Sharing of Information

The responsible person will ensure that relevant staff are made aware of any student's medical condition. This information will include, where appropriate: -

- Medical condition
- Side effects of medication
- Signs and symptoms
- Modifications and allowances

- Emergency actions

The responsible person will also ensure that relevant information is shared with cover staff etc.

Individual Healthcare Plans

The responsible person will work with (or identify an appropriate member of staff to work with) healthcare professionals and parent/carers to establish an effective healthcare plan where appropriate.

Healthcare plans will be reviewed if there is reason to suspect that the plan is no longer appropriate and at least annually. A healthcare plan review can be initiated by the school, healthcare professional or the parents/carers.

Risk Assessment

In addition to the healthcare plan the school will carry out individual risk assessments for any student where the student's medical needs introduce new risks to an activity or increase existing risks. This will include (but may not be limited to) individual risk assessments for off-site activities, sporting activities and practical lessons.

Risk assessment for off-site activities, in particular, will include consideration of: -

- Access to medication
- Appropriate storage of medication
- Staff training in administration of medication
- Emergency procedures

Unacceptable practice

To prevent unacceptable practice the responsible person will ensure that:-

- Pupils always have access to their medication during the school day or during educational activities off-site.
- Healthcare plans reflect the needs of the student and consider the views of parents/carers and advice of healthcare professionals
- Every effort is made to ensure that pupils with medical needs can stay in school for normal school activities (including lunch) unless there is a specific reason detailed in their healthcare plan not to do so.

- If the student becomes ill; ensure that he/she is accompanied to the school office/medical room by an appropriate person.
- Pupils with medical needs are not penalised in their attendance record if their absences are related to their medical condition, hospital appointments, etc.
- Toilet, food and drink breaks are provided where necessary in order to manage a student's medical condition.
- Arrangements for administering medication do not include the need for parent/carers to attend school.
- Every effort is made to ensure that pupils with medical needs can take part in every aspect of school life including off-site activities, sporting events and practical lessons.

Complaints

Parents/carers are encouraged to contact the Headteacher if they are concerned or dissatisfied in any way with the support provided by the school for a student with medical needs.

If concerns cannot be resolved in this manner; parents/carers can follow the school's complaint procedure.

Accidents Reportable to the Health and Safety Executive

Reports of fatalities, major accidents and over-three-day incidents are automatically forwarded to the Health and Safety Executive (HSE) by the on-line system as required by the Reporting of Injuries, Diseases and Dangerous Occurrences Regulations (RIDDOR). The Council’s Health and Safety Services section will liaise with the HSE on these incidents.

9. Training

Where provided, the school has a duty to ensure that PPE is used effectively. Managers will be expected to monitor the use of PPE and enforce its use where necessary.

Assessment of Need

The need for PPE will be determined during the Risk or COSHH Assessment process. Where identified as necessary PPE will be provided without cost to staff or pupils.

Purchase and Storage of PPE

The Headteacher will be responsible for ensuring that PPE is of the correct type, is suitable for the purpose and of the correct size to ensure that the fit is comfortable for the wearer and takes account of any health or medical conditions. Where PPE is required or offered, guidance on the correct use is provided.

In addition, Mitie/Head teacher will ensure that suitable arrangements are in place for the storage, cleaning and replacement of PPE.

Staff and Student Responsibilities

When issued with PPE; staff and pupils are required to wear it correctly.

Staff must take all reasonable precautions to ensure that PPE is stored and maintained properly.

14. Working Alone

It is recognised that, from time to time, it may be necessary for school staff to work in situations or locations which are remote from other members of staff. This will include staff working in the evenings, weekends or during the holiday in the school on their own.

In such circumstances the school will assess the risk to these individuals and will introduce suitable controls to ensure that all risks are minimised. A copy of the procedures introduced to control these risks will be kept in the Risk Assessment folder.

Any staff wishing to work outside normal school hours must have prior agreement/permission from the Head teacher and they also inform Mitie.

15. School Security

Mitie contract the role of being responsible for security to EXCO. Exco are responsible for the security of the site at the end of the day by ensuring that doors, windows, skylight etc. are secured.

Security Firm Personnel Attendance

Mitie has a contract with Exco, a security firm, who will respond to alarm activations without recourse to a school key holder.

Positive Handling

Positive Handling and **de-escalation** are methods we use for staff utilising de-escalation and strategies to support a child when they are in a crisis.

17. Working at Height

When working at height the correct equipment should be always used to mitigate the potential risk to health and safety. Each classroom has a footstool that can be used. Staff should not

climb on chairs or furniture.

No working at height should be undertaken when working alone.

Equipment should meet the Class 1 or 2 standard:

Max Safe Working Load: 175 Kg (27.5 st) for Class 1 and 150 Kg for Class 2. For daily use where onerous conditions of use, carriage & storage occur.

Any un-safe equipment or concerns about equipment should be reported to the appropriate Site Manager as soon as possible, and where equipment is damaged taken out of use immediately.

Ladders should be stored in a secure manner such as to prevent unauthorised use and are regularly reviewed. Working at height training is provided on Smart Log for those personnel that are authorised to use ladders.

Staff should use a dynamic risk assessment of the work to be undertaken at height. If staff are unsure of what is the right equipment to use advice should be sought from the HSO.

Mobile towers are only to be used by staff who have completed the relevant induction training and any excessive high-level work must only be undertaken by fully trained staff.
