Introduction

At Foxhole Learning Academy our aim is to develop children as confident, happy citizens, providing them with the tools and skills to succeed in life, whilst empowering them to embrace their beliefs and understanding of others. We aim for all children to develop in all areas of S.M.S.C until they are ready to leave our school and continue their journey of education into KS3.

Why

We want our children to be curious about the world and we seek to ignite a thirst for knowledge through engaging, inclusive lessons that are adapted to enable all pupils to make progress academically, socially and spiritually. From this, our Intent at Foxhole Learning Academy is that every child experiences a curriculum which will enable them to personally develop as citizens of our globally diverse world and as they progress into the next stage of their education, have the requisite skills to be successful, independent and motivated learners.

How

This is achieved through a exciting and embedded curriculum, underpinned by our core values which we refer to as the Foxhole Five. Our curriculum provides pupils with a range of experiences in order for their journey through our school to be successful and happy.

We also use the vision from the Cornwall RE syllabus: The 2020 syllabus retains its emphasis on RE contributing to the personal development of pupils. RE is not simply about gaining knowledge and understanding about religions and beliefs. It also helps pupils to develop their own understanding of the world and how to live, in the light of their learning, developing understanding, skills and attitudes. It makes a significant contribution to pupils' spiritual, moral, social and cultural development, as well as important opportunities for exploring British values.

Planning

At Foxhole Learning Academy, we plan lessons that encourage children to be inspired and to see the possibilities and hope that comes with new learning. Lessons aim to develop critical thinking through opportunities to make links in learning, and through outlets to be creative, such as the arts and links to the community. In active learning experiences, children are encouraged to think about their environment. Teaching encourages the development of growth and dignity, to keep trying when faced with difficult and new challenges and to know what it means to live in a diverse world. (See whole school curriculum policy and overviews)

Spirituality, Moral, Social and Cultural Education considers the 4 areas of: Self, Others, Beauty and Beyond to help children develop their spiritual awareness and foster a sense of responsibility:

The Spiritual Development of children is encouraged through:

- Developing children's curiosity to ask questions.
- Awe and wonder, in outdoor learning, during school visits, visitors and workshops and inspiring lessons.
- Connection and belonging, through whole school assemblies, school council, weekly citizens and connections to our local churches and community projects.
- Heightened self-awareness, daily opportunities to engage with an emotional check in, emotional coaching and tools and strategies to build self-esteem and awareness in all areas of school life including a sequenced and coherent P.S.H.E curriculum.
- Through opportunities for daily discussions, regular wellbeing activities both in class and whole school, emotional check ins whilst considering topical issues.
- A sense of security, well-being, worth and purposefulness through the opportunities provided for leading as a school prefect, citizen or as part of the school council. Class systems and whole school approaches that encourage and praise and purposeful learning and interactions with others.
- The ability to be reflective about their own beliefs, religious or otherwise, which inform their perspective on life and their interest in, and respect for, different people's feelings, values and faiths.
- By promoting a sense of enjoyment and fascination in learning about themselves, others and the world around them, including the intangible.

- In developing the use of imagination and creativity in their learning.
- And by a willingness to reflect on their experiences.

The Moral Development of children is encouraged through:

- Teaching pupils to recognise the difference between right and wrong, take responsibility for their actions and developing codes of behaviour based on their knowledge of the moral codes, of their own and other cultures, for example, respect for property, care of the environment, and to have a respect for the civil and criminal law of England.
- Respecting others' needs, interests and feelings, as well as their own, and developing an ability to accept and appreciate that others may have a different viewpoint. Also through growing an understanding of the need to review and re-assess their values, codes and principles in the light of experience, offering reasoned views about moral and ethical issues.
- Ensuring a commitment to personal values and contributing to the shared values held by our school community.
- Promoting racial, religious and other forms of equality of the protected characteristics.
- Providing models of moral virtue through literature, humanities, sciences, arts and assemblies; and reinforcing the school's values through images, posters, classroom displays, etc.

The Social Development of children is encouraged through:

- Developing an interest in, and understanding of, the way communities and societies function at a variety of levels, such as the family, the school, the local community, the town, City, county, capital city and the wider world and understand the notion of interdependence in an increasingly complex society, identifying the key values and principles on which school and community life is based.
- In a willingness to participate in a variety of social settings, cooperating well with others including working and socialising with pupils from different religious, ethnic and socio-economic backgrounds, promoting racial, religious and other forms of equality and be able to share views and opinions with others, fostering a sense of community, with common, inclusive values.
- Being able to resolve conflicts maturely, appropriately and effectively, exercising responsibility and encouraging pupils to work co-operatively both within and across classes and year groups.
- Providing positive experiences to reinforce our values as a school community –for example, through assemblies, team building activities, residential experiences and school productions.
- A willingness to volunteer and reflect on their own contribution to society.
- Show respect for people, living things, property and the environment.
- In acceptance and engagement with the fundamental British Values of democracy, the rule of law, respect and tolerance of those with differing faiths and beliefs, attitudes towards these

British values allows the children to participate fully in, and contribute positively to, life in modern Britain.

- Providing opportunities for engaging in the democratic process and participating in community life to exercise leadership and responsibility and to forge effective links with the world of work and the wider community.

The Cultural Development of children is encouraged through:

Gradually widening children's experiences as they progress through our school is an important step in providing rich and engaging learning across the curriculum. We carefully plan progressively richer experiences from Reception and beyond, these are in line with our Foxhole Five: Curiosity, Creativity, Wellbeing, Kindness and Relationships.

- An understanding and appreciation of the wide range of cultural influences that have shaped their own heritage and that of others.
- A willingness to participate in, and respond to, for example, artistic, musical, sporting, mathematical, technological, scientific and cultural opportunities.
- An understanding and appreciation of cultural diversity within school and further afield as an essential element of their preparation for life in modern Britain, as shown by their attitudes towards different religious, ethnic and socio-economic groups in the local, national and global communities.
- An ability to reflect on important questions of meaning and identity.
- An interest in exploring the relationship between human beings and the environment.
- By extending pupils' knowledge and use of cultural imagery and language and encouraging them to think about special events in life and how they are celebrated
- Recognising and nurturing particular gifts and talents; providing opportunities for pupils to participate in literature, drama, music, art, crafts, sports and other cultural events and encouraging pupils to reflect on their significance.
- Reinforcing the school's cultural links through displays, workshops etc. As well as developing partnerships with other schools (including secondary schools of KS3) and individuals to extend pupils' cultural awareness, for example, theatre, museum and gallery visits.

Appendix 1

Spiritual Development	
Provision	How it is evidenced
Religious Education curriculum Assemblies Opportunities for quiet reflection Outdoor education Whole school Values School Creed Regular and purposeful P.S.H.E provision taught through our Scarf curriculum	RE curriculum plans Visiting places of worship Whole school assemblies and celebrations of values Outdoor learning Residential visits Christian celebrations such as: Harvest, Christmas and Easter Time to reflect upon learning and experiences

Moral Development	
Provision	How it is evidenced
School behaviour and relationships policy Reflection books and reflection space for children to consider their own actions Religious Education curriculum Pupil Voice Taking part in Charitable projects Regular and purposeful P.S.H.E provision taught through our Scarf curriculum	Regular reviews of behaviour Nurture groups Celebration of children's achievements E-Safety teaching Whole school Assemblies and the explicit discussion of school values and the British Values Weekly certificates are awarded in celebration assemblies Child participation in a range of pupil groups: school council, prefects, citizens, sports teams, a range of clubs, school plays, key stage performances, choir recitals, reading buddy schemes Charity appeals and other fund-raising opportunities

Social Development	
Provision	How it is evidenced
Regular and purposeful P.S.H.E provision taught through our Scarf curriculum Working together in teams Pupil Voice Extra-curricular activities Transition opportunities to KS3 settings Outdoor Education PE curriculum Residentials and other school visits Links to other schools Kernow Learning Trust joint schools council	Residential visits Educational visits Afterschool clubs Participation in arts events Transition visits Play leaders Class reading buddies Participation in charity support Participation in sporting events
